

Innovation in Eyebrow and Facial Hair Depilation! Professional wax depilation formula based on natural and synthetic ingredients with a pleasant odor is perfect for the removal of unwanted hair on gentle facial skin. The product is incredibly easy and handy to use. Instantly removes hairs and makes the skin smooth for weeks. Effective even on short hairs (from 1.5 mm)! Long-lasting result up to 4 weeks! Flexible MAYAMY wax captures every hair and provides comfortable removal. After the procedure no additional plucking needed.

The natural ingredients – beeswax and pine resin – contained in the composition (in the formula), beneficially affect the skin and provide (provide following beneficial effects):

- ✓ anti-bacterial effect;
- ✓ moisturizing and nourishment;
- ✓ soothing effect.

Due to the convenient tip-applicator and mechanical dispenser, MAYAMY wax is easy to use and take on trips.
Be sure to read all the instructions before using the product.

- Non-woven Wax Strips – 20 pcs.

WaXPen Application Guide: Eyebrow and Upper Lip Areas Depilation

1 Preparation for Depilation Procedure

Cleanse the depilation area with oil-free make-up remover.

3 Eyebrow Area Depilation

Pic 1

Take the WaXPen. Slowly twist the dispenser mechanism in the upper part of the applicator clockwise (Pic 1) and then squeeze enough wax.

Pic 2

Apply wax on the desired area with the tip-applicator in the direction of hair growth (Pic 2).

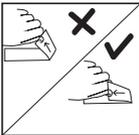

Pic 3

Place a non-woven strip on top, press it firmly and smooth in the direction of hair growth. Mind that one end of the strip should be in the area free of wax (Pic 3).

Pic 4

Pulling taut the skin with one hand, swiftly remove the strip against hair growth with the other hand (Pic 4).

Pic 5

To reduce painful feelings, remove the strip with a quick movement keeping it close to the skin (Pic 5).

2 Preparation of Wax for the Procedure

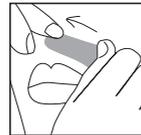

Prior to the procedure make sure that the temperature of the wax is at least 20°C. If you can not get wax out of the applicator, make sure that the temperature in the room is above 20°C and the WaXPen was there for at least three hours.

4 Upper Lip Depilation

Pic 6

Apply wax on the desired area with the tip-applicator in the direction of hair growth. Place a non-woven strip on top, press it firmly and smooth in the direction of hair growth. Mind that one end of the strip should be in the area free of wax (Pic 6). Slightly pulling the skin with one hand, swiftly remove the strip with the other hand (Pic 7). To reduce painful feelings, remove the strip with a quick movement parallel to the skin.

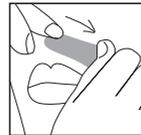

Pic 7

Pic 8

Apply wax on the same area again but against hair growth. Place a non-woven strip on top, press it firmly and smooth. Mind that one end of the strip should be in the area free of wax (Pic 8). Slightly pulling the skin with one hand, swiftly remove the strip with the other hand (Pic 9).

Pic 9

5 Cleansing

To cleanse wax residues from the skin, use **Post-Depilation Cleaning Wipes** that simultaneously soothe and moisturize it.

Recommendation:

- ✓ This product is not intended for use on persons under the age of 16.
- ✓ Depilation is not recommended for elderly.
- ✓ The procedure is permitted during pregnancy, but consult a doctor before use.
